7/26/95

Dear Paul,

Enclosed is an envelope I'll appreciate your maiing to mr. Johnnie Cochran, Simpson's lead attorney. I do not have his address and immobile as I am I've not been able to get to a legal directory.

I've been intending to write him for some time about another of his cases.

But if you caught the FBI Lab agent's testimony yesterday it may have reminded you of the one time you went there with me when you were east.

Not the calendar call that morning. That was on a different case of mine. But in that case I may have learned what might be helpful in that other case.

Martz's testimony yesterday did remind me of the case on which you accompanied me, with my layer, to the FBI building to confer on the lawsuit I filed for the results of the JFK assassination scientific testing.

Thanks and outbest,

Harold
